## **Thanksgiving is Thursday, November 27 this year!**

To our awesome customers:

It's that time of year when Bill and I look forward to planning for our favorite holiday—Thanksgiving. It has been a very challenging and sometime difficult year for us, and we know so many of you are worried and concerned about our economy. We share with you your concerns and we're focused on keeping our Thanksgiving menu offerings value-priced and present you a range of choices.

We will be working from an inspected commercial kitchen to provide you your Thanksgiving feast this year. We are still working on the details, along with pick up times and possible delivery and will have that, along with our menu, available next week.

We're also planning on doing a traditional Christmas Eve menu (all fish) and will have more details about that shortly.

As we're aware that every penny counts, and faxes cost you, if you don't want us to send you a fax, please email me at [jmenerson@aol.com](mailto:jmenerson@aol.com) or call me at 201.873.3765. We will cheerfully delete your fax number from our distribution list.

Regards,

Julia
